

NewMix[®] Renewable Energy Certificates (RECs)

Support Environmental Goals With Renewable Energy

Many businesses have established environmental goals or commitments for the next few years, and a company's energy supply is often looked to as an area of focus. Many renewable energy options exist that provide accessible and attainable paths for supporting these goals.

The Solution

It can be challenging to find the best renewable option for your business. Oftentimes land, capital and other resources are limited, creating obstacles to deploying on-site renewable generation or pursuing other physical installations. But with the help of Green-e[®] Energy Certified RECs, businesses can claim that they have procured renewable energy to support these goals and commitments, regardless of possible resource constraints.

Making RECs Work for You

NewMix[®] RECs are sourced from generating facilities located within the continental United States, allowing a business to buy RECs from renewable sources. RECs can be purchased as a block or as a percentage of electricity supply.

NewMix[®] is Green-e[®] Energy certified and meets the environmental and consumer protection standards set forth by the non-profit Center for Resource Solutions. Learn more at www.green-e.org.

Benefits

- Purchasing RECs is a simple way to support your company's environmental goals and commitments
- RECs allow you to make environmental claims about a reduction in greenhouse gas emissions associated with your electricity use, also known as "Scope 2" emissions.

Products to Help You Buy, Manage and Use Your Energy

Electricity

- Fixed Price Solutions
- Secured Solutions
- Flexible Index Solutions
- Block Solutions
- Peak Load Management
- Minimize Volatile Pricing (MVPe) Program
- Information to Implementation (i2i)
- Transparency Product
- Custom Forecast Solution
- MarketWatch

Natural Gas

- SmartPortfolio Program
- Minimize Volatile Pricing (MVP) Program
- Manage Portfolio Service (MPS) Program
- Energy Manager
- Fixed Price
- Fixed Basis
- NYMEX Lock
- Index

CPower LR/DR

- Automated Load Control
- Demand Response
- Ancillary Services
- Economic Programs

Renewable Energy

- Solar
- Renewable Energy Certificates (RECs)
- Carbon-Free Product
- Generation Development

Energy Efficiency

- HVAC Infrastructure
- Building Automation & Analytics
- Lighting & Controls
- Water Conservation
- Retro-Commissioning
- Measurement & Verification (M&V) Services
- Efficiency Made Easy

Onsite Generation

- Solar Solutions
- Fuel Cells
- Batteries & Storage
- Back-up/Emergency Generation
- Cogeneration
- District Energy Systems & Operations

Constellation is a leading competitive retail and wholesale supplier of power, natural gas and energy products and services across the continental United States. Constellation's family of retail businesses serves residential, public sector and business customers, including more than two-thirds of the Fortune 100. Learn more at www.constellation.com.
